### Search Notes

Your queries have completed processing. You may access an electronic version via eDAN (SCORE) and /or <http://es/ScoreAccessWeb>.

#### Published Applications Database - November 2005

Published\_Applications Nucleic Acid and Published\_Applications Amino Acid database searches now generate two sets of results each. The Published\_Applications databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Newly published applications will appear in the Published\_Applications\_New databases; older published applications make up the Published\_Applications\_Main databases.

Searches run against Nucleic Acid Published\_Applications produce two sets of results, with the extensions .**rnpbm** (Published\_Applications\_NA\_Main) and .**rnpgn** (Published\_Applications\_NA\_New).

Searches run against Amino Acid Published\_Applications produce two sets of results, with the extensions .**rapbm** (Published\_Applications\_AA\_Main) and .**rapgn** (Published\_Applications\_AA\_New).

Christina,  
Please request a RUSH sequence search for this After Final.  
Thank you,  
Beth

Please search 10/723,083 for interference only  
SEQ ID NO: 1

Thank you,  
Beth
